

Heart Balloons

Dimpled rings can look like heart balloons when the ends are left as strings.
The picot (-) is very small and the ring is joined (+) back into itself to form the dimple.
Two sizes, tatted in 20 cotton, are used in this bunch.

R: 10 – 4 + 10, close and leave ends

R: 12 – 5 + 12, close and leave ends

NB: If you are needle tating, do the dimpled ring in sections.

Use a paper clip to hold the loop at the bottom open.

Tat the 1st half of the dimpled ring: 10 – 2 then slide it off the needle. Do Not Turn.

Tat the 2nd half of the dimpled ring: 2 + 10.

Put the needle through the clip loop and shape.
